**Specializations:** Relationships, eating disorders, body image

**Certifications:** Psychoanalysis, dance therapy  
Graduated from Yeshiva University in 1990.  
In Practice for 33 years

Michele Rose comes to the KPI with a breadth of experience as a psychoanalyst and creative arts/dance therapist.

With beliefs that everyone who crosses the therapist's threshold is looking for a second chance, a chance to live a richer, less restricted life and that we are more alike than not, she works with her patients to understand, then to help transform the sense of disease into a sense of being worthwhile and in charge of one's life.

She was clinical professor at Vanderbilt School of Medicine from 1995 to 2007. She is Dean of Training at The Kentucky Psychoanalytic Institute.
